

Dynamic Positioning Exercise Nautical Skills Competition 2023

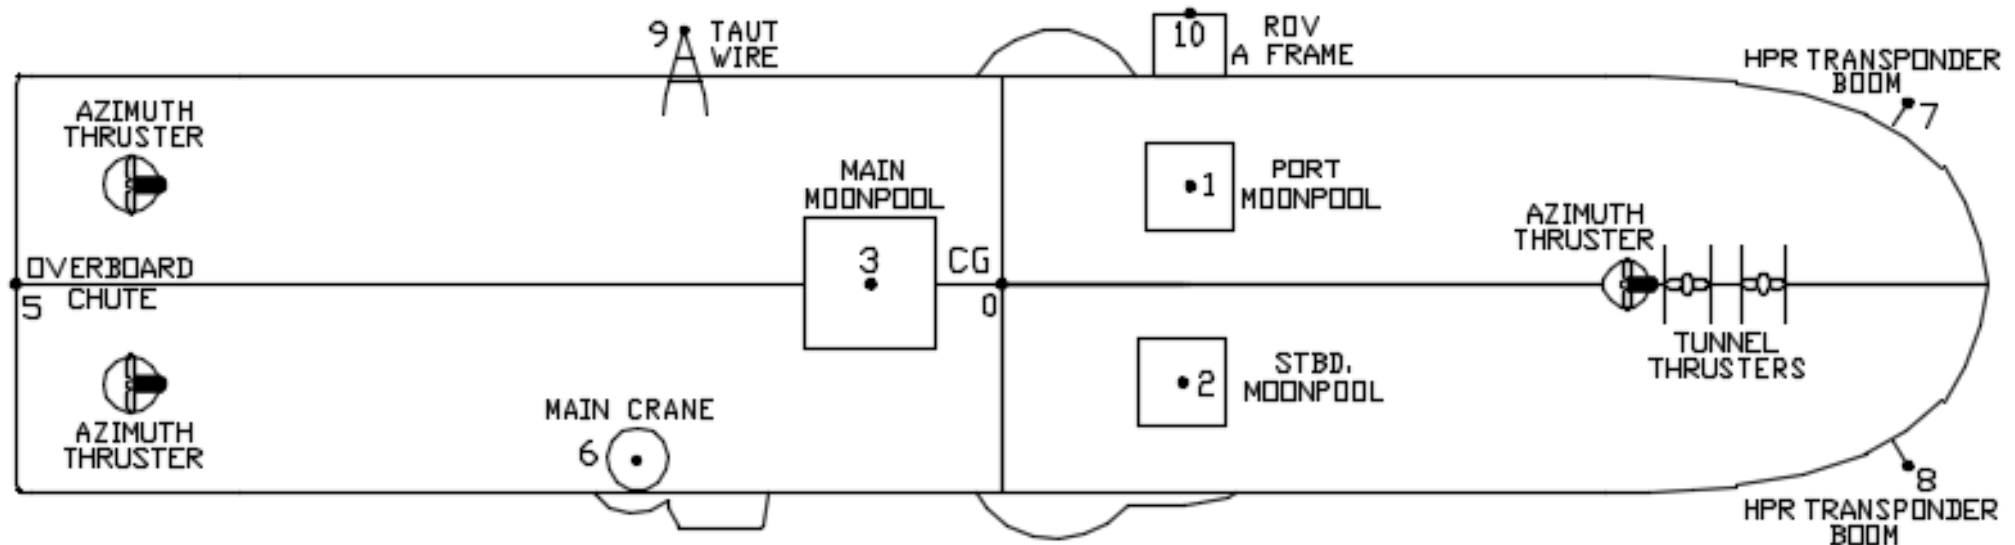

Your Ship

MSV Challenger II

MSV Challenger II

The Tasks

- **Depart a dock in St. John's harbor. Manoeuvring the vessel using individual thruster controls.**
- **Steam through the narrows. Manoeuvring the vessel using individual thruster controls.**
- **A short transit to the worksite. Manoeuvring the vessel using individual thruster controls.**
- **Stop the vessel & set up on DP.**
- **Using Auto DP control, move the vessel to the designated worksite.**

Things to Consider

- Operate the vessel with due consideration to safety.
- Other vessel traffic (take actions as required).
- Vessel Traffic Services (follow reporting requirements).
- Radio communications (with other vessels & VTS).
- Lookouts (visual & radar).
- Steering with azimuth thruster controls.
- Safe speeds (during transit & DP operations).
- Proper procedures for DP setup & manoeuvring under DP control.
- Work as a team.
- Be prepared to deal with emergency situations (never know when they will occur).
- Other ??
